# Palantir | Mission Manager

SECURE AND COMPLIANT

In today's fast evolving and complex world, **U.S. Government agencies need secure, compliant, and interconnected software solutions fast**. Mission Manager is designed to streamline the federal government's onboarding of emerging technology software vendors into a secure, already assessed environment and data fabric, ensuring they can swiftly be used for critical mission use cases.

Mission Manager offers federal partners the flexibility to quickly onboard innovative, traditional, and non-traditional software vendors into a secure Kubernetes-based ecosystem, providing complete oversight and management of all deployed services and software versions, whether in connected, disconnected, cloud, or edge environments. Government administrators have full visibility for operational readiness, risk assessment, and informed decision-making.

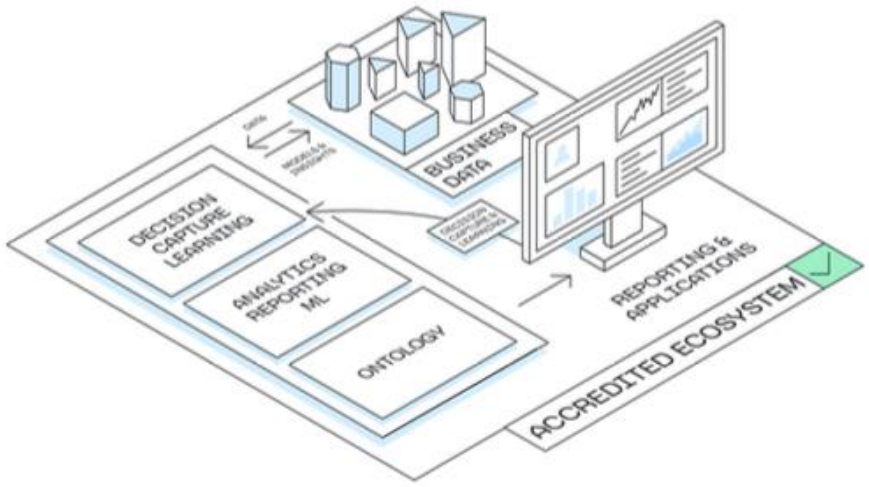

Speedy Vendor Onboarding.

Immediate Connectivity to Existing Data Layers.

Complete Oversight and Transparency.

Automated Cybersecurity and Risk Management.

Seamless Interoperability.

## Get Started
