

— Affinity Groups are Palantirian-led groups made up of individuals who share commonalities, backgrounds, or demographic factors such as gender, race, or ethnicity. These groups, and their allies, come together to promote cultural awareness, create social connections within the company, and drive professional development. They also help further our mission of providing an inclusive workplace for all.

WE DO THIS BY:

01 / Facilitating Growth

Empower personal and professional development opportunities, aligned with each group's goals, through workshops, speaker panels, groups discussions, mentorship, and conferences.

02 / Impacting the Business

Creating opportunities for members to lend their diverse perspectives and experiences to foster innovation and inclusion across various business areas, including product development, communications, events, and diversity and inclusion programming.

03 / Building Community

Coming together to celebrate and learn about various holidays, celebrations, traditions and events is a core aim of our community building that fosters inclusion for everyone while also offering opportunities to learn about experiences you may not be familiar with.

THE GROUPS:
